

Trouvaille Eunoia

(An RR Initiative)

Dear Reader,

Wishing you a very happy day. I am glad to see your good selves read this brochure. **Trouvaille Eunoia (A Lucky Find Of Beautiful Thinking)**, is an initiative of a Freelancer cum Data Scientist 'RR', to guide students from any stream / discipline to do a scintillating project or a significant research paper in the field of data analytics, data science, machine learning and artificial intelligence.

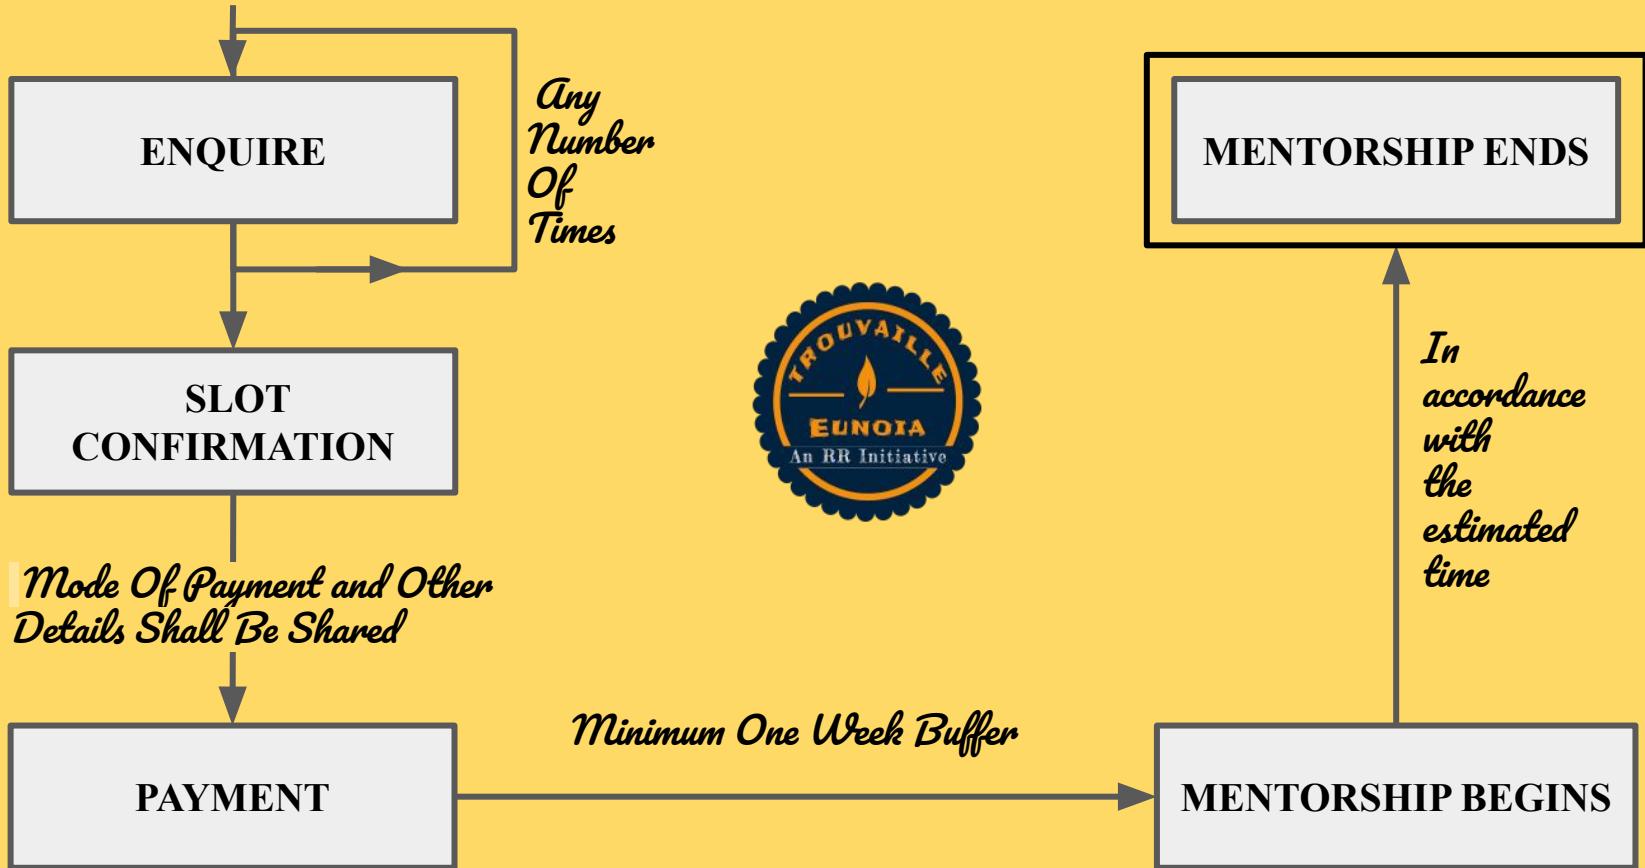

A Note on Credibility: The freelancer has won several awards and certificates of appreciation in various national and international conferences, for building promising projects and for presenting significant research papers. RR strongly believes it to be an honour in helping students excel in their education, especially by guiding and grooming them to build sustainable and unique projects. **The final outcome of every project or a paper guided is aimed at helping one's society, one's nation and our world to prosper.**

Kindly read the following pages to know more. Thank you.

Best Regards

RR

STAGES OF ACQUIRING MENTORSHIP

It is mandatory for every mentee to read and acknowledge the Basic Guidelines, Instructions and Prerequisites

1. This is **purely a mentorship program** where the **mentor will guide** you to complete the project in a successful and complementable manner. This is not a project centre which usually delivers a readymade or tailored project for students to submit and avail credits. Under this initiative you will be taught to grow, define and create more projects, thereby educating and empowering you in the desired field.
2. **Assignments (Hands On) will be given** on a regular basis and upon successful completion will itself lead to the desired end result – the intended project or the research paper.
3. There is **no fixed size of the team**, it can be a student or a group of students.
4. **Fee** once paid is **not refundable** in any instance, as every step taken by the mentor in this regard is assured of proper and efficient service. **Success shall be made possible only when both the mentor and the mentee work with dedication and commitment.**
Please book your seat – by filling the slot confirmation form and ONLY then payment shall be made.
5. Mentorship will always be based on the **FCFS principle. In case of non availability (of the desired slot), the next nearest available slot shall be intimated via your registered Email ID.**

It is mandatory for every mentee to read and acknowledge the Basic Guidelines, Instructions and Prerequisites

6. Any registration enquiry will be communicated only through the registered email address.
7. The language for communication is only english, (dialects accepted).
8. Prior knowledge in any one of the programming languages is an added advantage. For those who have none, can learn the basics of any desired language by their own or can pay an additional fee to learn it from the freelancer.
9. The participating individual or student must possess a laptop with an average strength internet connection (at least 8 Mbps) and a small notebook, in order to attend team calls (preferably zoom, cisco or google meet), as this is purely a digital program.
10. Under rarest of rare instances alone, shall the dates exceed the estimated time. The same commitment is expected from the Students' Side.

Resume Writing PG Student Feedback

Really satisfied with the sessions and found it to be very useful as it is the very basic thing to have a good resume for building my career. So I am very happy in the course done in "Trouwaille Eunoia". Also the mentor made me to feel very comfortable during the session and had shown great patience towards the student. Thank you so much.

STUDENT FEEDBACK

Workshop On Creativity and Innovation In Project Management

NICE SESSION

A GOOD SESSION WITH AN ELABORATIVE EXPLANATION OF PROJECT MANAGEMENT.

VERY NICE AND INFORMATIVE SESSION

GOOD SESSION

THE WORKSHOP IS VERY USEFUL AS IT MADE A CLEAR VIEW ON CREATIVE AND INNOVATIVE STARTUPS.

 Trouwaille Eunoia
(An RR Initiative)

THE SERVICE ON FINAL YEAR PROJECT MENTORSHIP WAS GOOD. I GOT TO LEARN FROM THE BASICS OF DATA SCIENCE TO THE LEVEL OF BUILDING A COMPLETE DATA SCIENCE PROJECT. I THANK MY MENTOR RR FOR HELPING ME BUILD A NEW SKILL WHICH HAS A GREAT SCOPE FOR THE FUTURE.

STUDENT - FEEDBACK

The mentorship service I received under Trouvaille Eunoia was "Creative Resume Writing". I found the service very useful because I have actually learnt the art of building a resume from the scratch including creatively designing the template. I have also gained the confidence to build more impressive resumes in future. Thanks to Trouvaille Eunoia.

 Trouvaille Eunoia
(An RR Initiative) A RAY OF HOPE

“

The speaker of the programme Ms. RR presented well. Her PPT is really excellent and her clarity of speech is good...overall the content delivered by her today is mind blowing and most of our students are motivated towards potential enhancement. Thank you so much for the wonderful motivation.

”

FACULTY FEEDBACK

 Trouvaille Eunoia
(An RR Initiative) A RAY OF HOPE

“

Firstly, I would like to congratulate for delivering such a wonderful session for the students. The flow of the content is well organized and presented. The presentation was interesting and the explanations were crystal clear , I hope it reached students in the most effective way. we are looking forward to having more such presentation in the future

TROUVAILLE EUNOIA

an RR initiative

RR is very friendly with her students and has always encouraged us to be interactive. Her way of delivering lectures is absolutely professional as She excels in teaching various disciplines. The hands-on practice during class and assignments thereafter has been a technologically enriching experience. She made me feel absolutely comfortable to ask any number of doubts and had never failed to clarify them. Also she had patiently corrected my mistakes and guided me until perfection has been achieved. She has never failed to develop confidence among students with her positive attitude and thought-provoking nature. I would sincerely recommend RR as a mentor to anyone who is willing to do creative projects and researches in their desired fields. I wholeheartedly thank her for shaping my skills. I wish her the very best for all her future endeavours.

STUDENT FEEDBACK

Trouvaille Eunoia
(An RR Initiative)

The services on the report writing and proofreading were good. It has helped me portray everything I had done in the project in a professional manner.

I thank my mentor RR for patiently teaching me the art of report writing and proofreading it. My mentor RR has a unique way of guiding students in various domains and it is appreciable.

Her eloquent communication skills and her friendly guidance to students makes her stand out from any other mentor.

I wish her all the best for her future endeavors.

RETIREE'S - FEEDBACK

I have started an online class with RR since June 2021. I am 60 years old and had the fear to talk in English. So I joined the Spoken English class of Trouvaille Eunoia. The class presentations given by her is very good and the subject teaching methodology is marvelous. The classes are very interesting and within a month I am able to speak English without any fear. RR is very kind and polite while taking online class. If any doubts arise in between classes RR politely will explain again and again without getting angry.

I wish her success in her future life.

Thank you once again to RR.

May God bless her for bright future

Celebrate Interviews

MBA STUDENT AND JRF ASPIRANT'S FEEDBACK

HEY RR, FIRSTLY THANK YOU VERY MUCH FOR THE TIMELY HELP YOU HAD GIVEN ON MY CUSTOMIZED NEED OF INTERVIEW PREPARATION. I WAS ABLE TO GIVE MY BEST ON THAT DAY AND IS AWAITING A POSITIVE JOB RESULT TOO. THE SIX HOUR SESSIONS WERE SO GOOD. AS ALWAYS YOU WERE VERY ENCOURAGING AND PATIENT THROUGHOUT. I WISH YOU ALL THE VERY BEST.

An VIII Standard, Overseas [Gulf] Student's Review

These 15 days have really helped me in learning the basics of the programming language python and the course was fun and interesting for me.

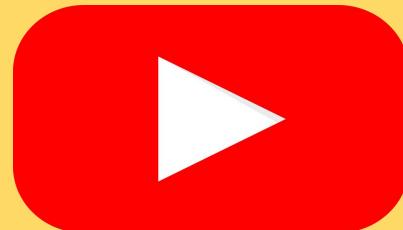

RR has helped me in learning python by making it easier to understand. I have learned the basics of python such as decision making statements , looping commands , syntaxes, semantics etc. and we also coded the game of rock, paper, scissors. It was lot of fun.

I feel I had become a better programmer than Day One . With all the lessons ma'am has taught , I can create a Mini Program Now.... As I want to learn more, I am planning to join the second course too.
